WCAG COMPLIANCE
STEP BY STEP

01. Provide text alternatives for all non-text content
02. Ensure that all local policies are being enforced
03. Provide synchronized alternatives for multimedia
04. Ensure that information and structure can be separated from presentation
05. Make it easy to distinguish foreground information from its background
06. Make all functionality operable via a keyboard interface
07. Allow users to control time limits on their reading or interaction
08. Allow users to avoid content that could cause seizures due to photosensitivity
09. Provide mechanisms to help users find content, orient themselves within it, and navigate through it
10. Help users avoid mistakes and make it easy to correct mistakes that do occur
11. Make text content readable and understandable
12. Make the placement and functionality of content predictable
13. Support compatibility with current and future user agents (including assistive technologies)
14. Ensure that content is accessible or provide an accessible alternative
